

# Education First Aid Course

Providing effective, lifesaving first aid interventions requires instruction and practical training. As with any training, it is more useful if training occurs before being confronted with a real-life situation, particularly in an education and care setting.

This course has been developed for educators and support staff working within an education and care setting who are required to respond to a first aid emergency, including asthmatic and anaphylactic emergencies. It is delivered in line with the Australian Resuscitation Council guidelines.

During training you will gain the confidence and ability to recognise an emergency situation, identify hazards and make them safer, and provide a first aid response to infants, children and adults.

You will also learn the importance of recognising the possible psychological impacts on self, other rescuers and children, talking with children about their emotions and responses to events and participating in debriefing with your supervisor.

## Provider of Training and Assessment

This course is delivered and assessed on behalf of Allens Training Pty Ltd RTO 90909 by First Aid Competency Training.

TRAINING AND ASSESSMENT DELIVERED ON BEHALF OF

## Important information prior to enrolment

### Unit Being Delivered

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd RTO 90909.

- **HLTAID004 Provide an emergency first aid response in an education and care setting**
- HLTAID003 Provide first aid
- HLTAID002 Provide basic emergency life support
- HLTAID001 Provide cardiopulmonary resuscitation
