

Advanced Resuscitation Course

Providing effective, lifesaving first aid interventions requires instruction and practical training. This is especially true where it relates to potentially fatal illnesses and injuries, such as those that require cardiopulmonary resuscitation (CPR). As with any training, it is beneficial if it occurs before being confronted with a real-life situation.

This Advanced Resuscitation course is delivered in line with the Australian Resuscitation Council guidelines and applies to all workers or members of the community who may be required to provide CPR and oxygen in the event of an emergency.

Participants attending this course will develop the skills, knowledge and confidence required to provide an emergency response and use specialised equipment for those in need of resuscitation, in a range of complex situations, including community and workplace settings.

Participants will also learn how to monitor and handover the casualty to medical professionals for further care, and how to maintain resuscitation and oxygen equipment.

Provider of Training and Assessment

This course is delivered and assessed on behalf of Allens Training Pty Ltd RTO 90909 by First Aid Competency Training.

TRAINING AND ASSESSMENT DELIVERED ON BEHALF OF

Important information prior to enrolment

Unit Being Delivered

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd RTO 90909.

- **HLTAID007 Provide advanced resuscitation**
- HLTAID001 Provide cardiopulmonary resuscitation

To view full unit details please visit www.training.gov.au

Course Delivery

This course will be delivered in the workplace or at an First Aid Competency Training facility.

Course Duration (face to face)

- **Face to Face – 6 hours** (minimum) – full face to face course
